

Word of the Week for February 1, 2009

After months of planning and many hours of praying, Disciple Now 2009: **Live It** is upon us. What a great weekend we have had. I am excited today as we gather to “wrap up” the weekend with our students. However, my prayer is that it is not a “wrap up” but a spring board into what is ahead for us as a community of believers!

We have seen intense times of worship with our students and adults this weekend and a great time of service both in our community and in Fort Worth feeding the homeless. What an example these students should be to us as adults. May the youth and leaders having spent time corporately and individually worshipping this weekend as well as serving those around them become a staple in the life our church in the days ahead.

I am ready to **LIVE IT**, are you?
