

Word of the Week

We had our first T-ball practice this week! It was so much fun to watch the little ones begin to learn the basics of the game. Some of them have never touched a glove or bat before, so it was a whole new experience for them. Then I turned on the TV and saw the major leaguers play. For many of them it was second nature, yet they still had to take a couple of months to get in shape and prepare for the season.

It is much the same in the Christian faith. We get as excited as new believers, but we must continue to sharpen our “skills” by studying God’s Word and developing our relationship with Christ in order for living the Christian life to become second nature to us.

I hope you have a great week!
